

Dear Family!

My name is Márta, I'm a 30 years old hungarian girl. I have a petite temper, so sometimes people take me for a teenager.

I am friendly, honest, joyful and creditable.

Now I am working like a shop assistant in a motor scooter stop, but this technical things are not my cup of tee. My qualification is a reference who works in a travel agency.

I have one brother, his name is daci. He has a wife since last year. Because I haven't got husband or a child, youst one little fairy dog, so I decide: I like to go abroad for 1-2 years to study the language well and discover a new culture, meet new people and have a lot of new friend.

I'm self-sufficient fully since 6 years, when I moved my parents house, so I can cooking, baking, ironing, hoovering, making up the bed, cleaning the windows, etc. In my leisure time I like taking a trip mainly in the mountains, going theatre, dancing with my friends, ice skating in winter or playing with my dog.

I can go crazy for the pets and the nature, I would like to be a farmer when I was child.

I like to be with children, I'm patient with them. I took care of my cousin's son full many time until the boys were younger. The last three years I helped a lot in the housework for two family too in my leisure time or just looked for their child. Both of them are 4 year-old now and so cute! They are very different: Noémi is calm and peaceful, orderly fairy girl, Gergő is a really penny, stubborn, tumpling little boy, he needs a lot of concern.

I like to be the part of your family from the beginning of the next year!  
I hope to hear from you soon!

Best regards: Márta
